## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by EP 0526928

A1. The European Patent Application discloses a device for cooling an object with a deformable sleeve-like body and comprising: an inner compartment (3) for contacting an object and housing a non-freezing cooling liquid (6), an outer compartment (4) surrounding the inner compartment and housing an insulator (7). The outer wall of the said outer compartment is manufactured of material having a low transferability, made of a resilient material that can be compressed and therefore inherently consisting of elastic features; and moreover air is escapable. Furthermore the outer wall is thick enough to offer strength and therefore inherently capable of absorbing water if needed.
